

# DADCO's Duralene™ Rod Wiper

DADCO's Duralene™ rod wiper guards against draw die contamination within the cylinder. In numerous tests, the Duralene™ rod wiper prevented premature failure which otherwise can occur when gas springs are exposed to certain draw die compounds.

Unlike conventional wipers, the DADCO Duralene™ rod wiper resists attack from caustic fluids. An elastomeric spring tensions the sharp scraping lip and facilitates wiping away most tacky fluids. Owing to its excellent performance under demanding conditions the Duralene™ rod wiper is now standard in all Micro Series and LJ Series Gas Springs, and is available as an option for the L Series. Contact DADCO for availability of DADCO's Duralene™ rod wiper for large gas springs.

Micro, LJ and L shown with the DADCO Duralene™ rod wiper

When ordering the DADCO Duralene™ rod wiper for the L Series, specify "W" after the series letter code, followed by the model number. The remainder of the ordering code will remain the same. See example below.

### L Series Ordering Example:

**LW.300.025.TO.150**

Model Number:  
*LW.300, LW.500, LW.750*

Stroke Length:  
See charts in Catalog No. C01104B.

Charging Pressure:  
15-150 bar (200-2175 psi)  
*When not specified, default is 150 bar.*

Mount Option:  
See options in Catalog No. C01104B.  
*When not specified, default is TO, basic model.*

When ordering the DADCO Duralene™ rod wiper for the Micro Series and LJ Series, the ordering code remains the same because the wiper is standard. See examples below.

### Micro Series Ordering Example:

**C.180.007.TO.GR**

Model Number:  
*C.090, C.180, C.250*

Stroke Length:  
*7, 15, 25, 38,  
50, 80, 100, 125*

Force:  
Green, Blue, Red, Yellow  
Black – adjustable model - specify  
pressure: 500-2560 psi; 34-177 bar

Mount Option:  
TO - Plain Body  
TB1 or TB2 - Threaded Body (C.090 only)  
*When not specified, default is TO, plain body.*

### LJ Series Ordering Example:

**LJ.300.025.TO.150**

Model Number:  
*LJ.300, LJ.500, LJ.750*

Stroke Length:  
See charts in Catalog No. C01114A.

Charging Pressure:  
15-150 bar (200-2175 psi)  
*When not specified, default is 150 bar.*

Mount Option:  
See options in Catalog No. C01114A.  
*When not specified, default is TO, basic model.*
