

DADCO®

The Global Leader in Nitrogen Gas Spring Technology

TRAINING COURSES

DADCO offers a variety of free training courses from basic repair, filling and safety to linking nitrogen gas springs. DADCO's training courses are provided as a service to customers and can be customized to suit customer applications.

NITROGEN GAS SPRING SAFETY

DURATION: 30 MINUTES

This course provides general safety tips on the installation, operation and removal of DADCO's Nitrogen Gas Springs.

BASIC REPAIR AND FILLING

DURATION: 45 – 60 MINUTES

This course provides a general overview on how to service and maintain DADCO's Nitrogen Gas Springs. It includes repairing, filling, proper installation and handling of gas springs.

LINKING DADCO NITROGEN GAS SPRINGS

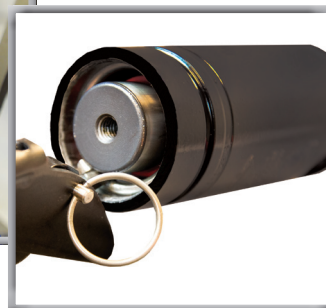

DURATION: 30 – 60 MINUTES

This course provides instruction on linking nitrogen gas springs. Depending on customer needs this course can cover crimping, hose assemblies, piping a system and operation.

LINKED SYSTEM MAINTENANCE

DURATION: 30 MINUTES

This course provides instruction on repairing a linked nitrogen gas spring and troubleshooting linked systems.
